

BEACON CENTER

LIGHTING THE WAY

- Substance Use Disorder Services • Mental Health Counseling • Evaluation • Drug Testing

Beacon Center's Mission:

The clinical program is founded upon the belief that opioid use disorder is treatable, and that those persons living with its effects are entitled to the best treatment available at the level of least intrusion in their lives. This care should reaffirm the individual's self-worth and inherent human dignity. Thus, the caregivers, the staff, must be caring, compassionate, and professionally competent; the facility in which the program is operated must be appropriately discreet, attractive, and comfortable, as well as accessible and affordable.

Because opioid use disorder affects every aspect of patients' lives, a treatment program must also address every relevant aspect of patients' lives, from the physical to the metaphysical, the body to the spirit. For this reason, the formal treatment program includes not only medication, but also individual, family, and group counseling, and an introduction to the lifelong support a recovery program can offer. Services may also be provided for the significant other of someone with a substance use disorder, these programs are individualized and designed to meet the special needs of our varied clientele.

Business Objectives

- Create a quality program following a patient centered approach, utilizing evidenced based practices
- Maintain solid financial practices that promote sustainability
- Develop and retain staff and increase management team

Major Goals 2024-2027

- Maintain CARF accreditation in both Rome and Utica OTP clinics
- Maintain NYS OASAS three-year operating certificate in both Rome and Utica OTP clinics
- Continue to improve the technology function within the organization
- Recruit and retain staff in key positions – clinical and administrative
- Implement mental health services in both Rome and Utica OTP clinics
- Develop an annual financial budget, which contains reasonable projections of revenue and expenditure/maintain solid financial practices
- Develop a structured training model that will improve the services provided to our patients

Strengths

- Committed management team and staff

- Management able to multi-task
- Patient centered approach
- Good reputation within the community
- Discrete office space
- Financially sound company
- Desire to learn and implement evidenced based services
- Participate in a number of community committees, sub committees and task force meetings to address opiate use disorder. Also a member of the NYS Council for Community Behavioral Healthcare and the Coalition of Medication-Assisted Treatment Providers and Advocates (COMPA).
- Correctional Facility Contracts to provide Methadone treatment to inmates.
